

ILX-007 & INE-W960 PARKING BRAKE SEQUENCE

SET UP MENU AND AUX AV INPUT

To display the general setup menu screen and video playback for aux source:
Your vehicle must be parked with the ignition key in the ACC or ON position.
To do this follow the procedure below.

1. Bring your vehicle to a complete stop at a safe location place the vehicle in park.
2. Engage the parking brake, release the parking brake then engage it again.

The locking system has now been released. If the parking brake is released engaging it again will reactivate this sequence as long as the vehicles ignition has not been turned off.

Each time the ignition is turned OFF perform this procedure to unlock the system.
